Private joint stock company «Promarmatura» was founded on 16th of December 1994 and specializes in production and complex deliveries of industrial pipe-line valves and oil and gas equipment.

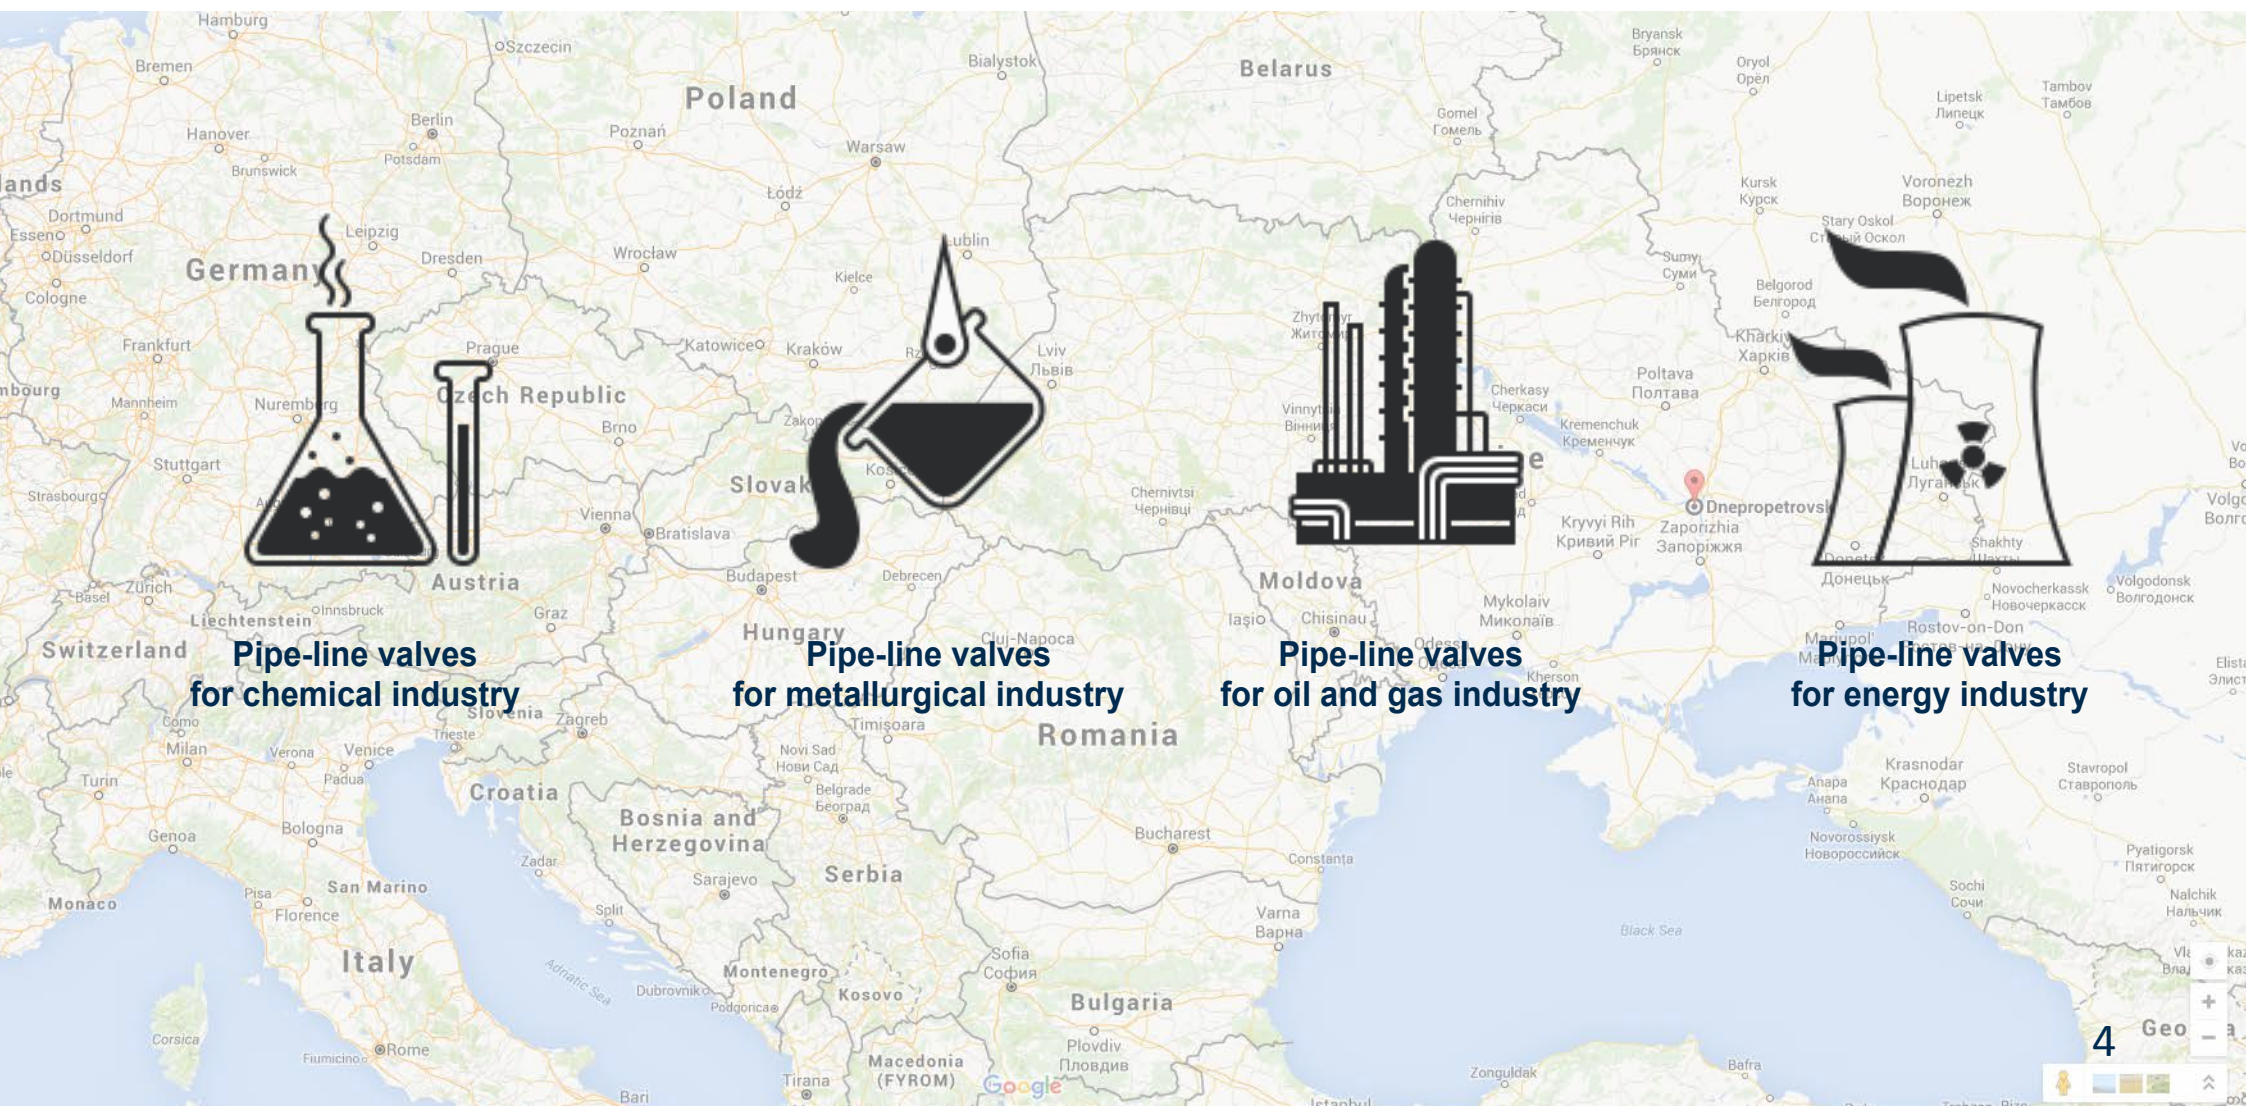

JSC «Promarmatura» includes the following leading valve enterprises of Ukraine:

- PJSC «Armaprom», city Mirgorod
- PJSC «Slavgorod fitting valves plant»
- «Spetsstall GOR Works Ltd.»

Products and equipment of JSC «PROMARMATURA» work successfully in oil and gas, metallurgical, power generating, mining, chemical, oil processing and pharmaceutical industry fields.

PROMARMATURA – was the first company in Ukraine that certified processes of designing, development, production, purchase, storage and deliveries of pipe-line valves and equipment according to international quality management system and that nowadays complies with requirements of international standard ISO 9001-2015.

The company is certified as a producer of forgings and castings from carbon and corrosion resistant steel grades in accordance with European Directive 97/23/EC as per requirements of AD 2000-W0 of company TUV THURINGEN for equipment working under the pressure.

Products comply with requirements of technical specification of custom union TP TC 032.

JSC «PROMARMATURA» certified pipe-line valves for compliance with European standards and PED 97/23/EC with the right of use of CE sign.

# СЕРТИФИКАТ

**ARMAPROM**  
ENGINEERING COMPANY

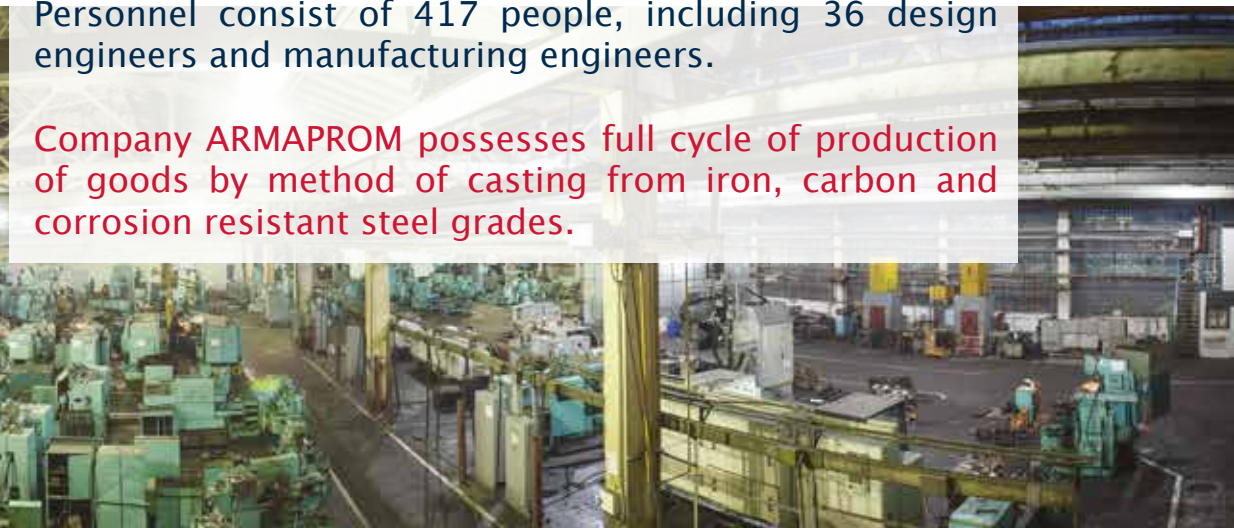

Main production unit of our company – factory ARMAPROM is situated in Mirgorod city, region of Poltava on a distance of 200km from big industrial centers – Kiev, Kharkov, Dnepropetrovsk.

Enterprise occupies the area of 122000 m<sup>2</sup>, including 71700 m<sup>2</sup> – the area of work shops and administration buildings.

Personnel consist of 417 people, including 36 design engineers and manufacturing engineers.

Company ARMAPROM possesses full cycle of production of goods by method of casting from iron, carbon and corrosion resistant steel grades.

Main equipment for melting of steel:

- Electric arc furnace DSP with capacity up to 5tn
- Induction crucible electric furnace with capacity 0,75tn
- Converter of gas-oxygen refining (GOR) with capacity up to 6tn

Capacity of metallurgical production of PJSC «Armaprom» makes:

- For liquid steel – 18 807 tn/year
- For usable castings– 10 615 tn/year (ingots + castings)

- Is equipped with modern mixers FAT (Germany): for production of molds (capacity 20 tn/hour) and for production of cores (consumption 5 tn/hour of molding sand)
- Weight of castings made by Hardening Tar-Sand Process from 1 till 3500kg depending on category of complexity of castings
- Maximum size of casting boxes used for molding – 3000x2000x600 mm and 4400x700x400 mm

- Lathes with CNC
- Machining centers DAHLIN
- Machining of big sized parts / Rafamet KSF 320/A, 2n637gf1
- Line for processing of special products

## 5-coordinate machining center DAHLIN MCV-1700 and MCV-720 for manufacturing of molds

Maximum parameters of tested products  
DN 15–2000  
PN 0,1–375

Specialists of central laboratory of the factory were taught and obtained certificates (including certificate of nuclear power agency) for execution of the following methods of control:

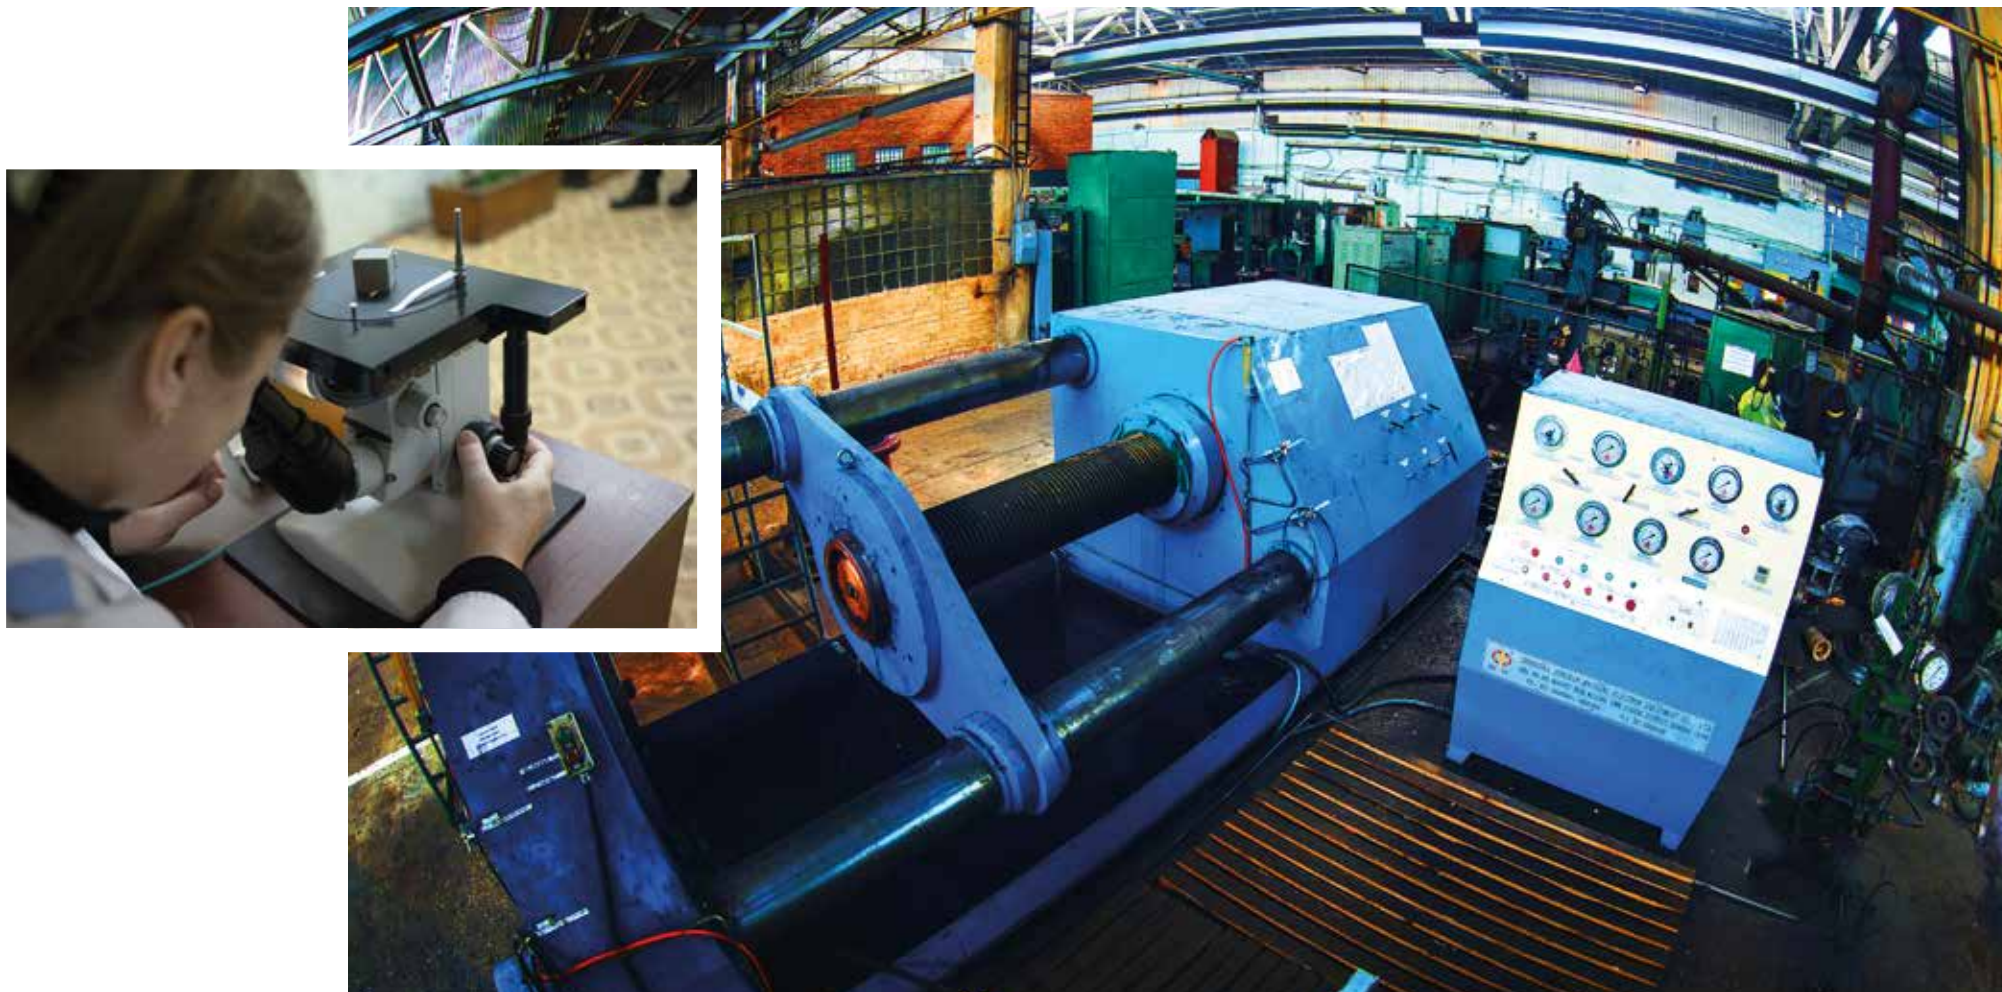

- Quality control of incoming materials (chemical, spectrographic analysis and X-ray)
- Check of physicochemical properties of molding sands
- Operational control of chemical composition of steel after fusion by spectrometer SPECTROLAB M
- Chemical composition of metals
- Metallographic tests
- Mechanical tests

Non-destructive methods of control:

- Dye penetrant inspection,
- Magnetic powder flaw detection
- Ultrasonic control
- X-ray control

## SLAVGOROD FITTING VALVES PLANT

Slavgorod fitting valves plant specializes on manufacturing of forged steel globe valves and control valves, thermodynamical steam traps, ball valves, and also stop and control valves for power stations (range of Chekhov power machine building plant).

The company has the following work shops and technological departments: forging, machining, surfacing, assembling, painting, testing station, ware-house.

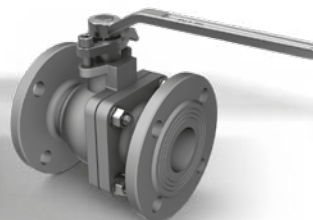

STEEL GATE VALVES  
PN 6,3 - 160  
DN 15 - 2500

BUTTERFLY VALVES  
PN 10 - 40  
DN 50 - 2000

BALL VALVES  
PN 16 - 40  
DN 15 - 200  
  
PLUG VALVES  
PN 10  
DN 15 - 200

VALVES FOR  
POWER

STATIONS  
GLOBE VALVES  
PN 10 - 160  
DN 6 - 300

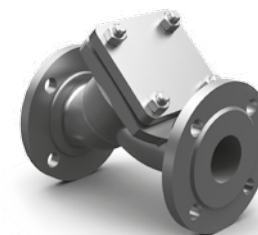

SHUT-OFF VALVES  
PN 0,5 - 100  
DN 15 - 350

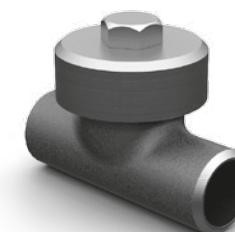

LIFT CHECK VALVES  
SWING CHECK VALVES  
PN 16 - 160  
DN 25 - 1000

CONTROL VALVES  
PN 10 - 160  
DN 6 - 300

STRAINERS  
PN 10 - 160  
DN 20 - 800

STEAM TRAPS  
PN 40, 100  
DN 10 - 50

WARE-HOUSE for supply of complete sets of products,  
village PARTIZANSKOYE, DNEPROPETROVSK REGION.

- Biggest in Ukraine storage complex and ware-house for supply of complete sets of products with the area of 62020 m<sup>2</sup>. Area of indoor ware-houses makes 22107 m<sup>2</sup>.
- Own rail-way branch line, load-lifting equipment for discharge and loading of any types of wagons.
- Custom bonded ware-house (CBW) with the area 2900 m<sup>2</sup>.

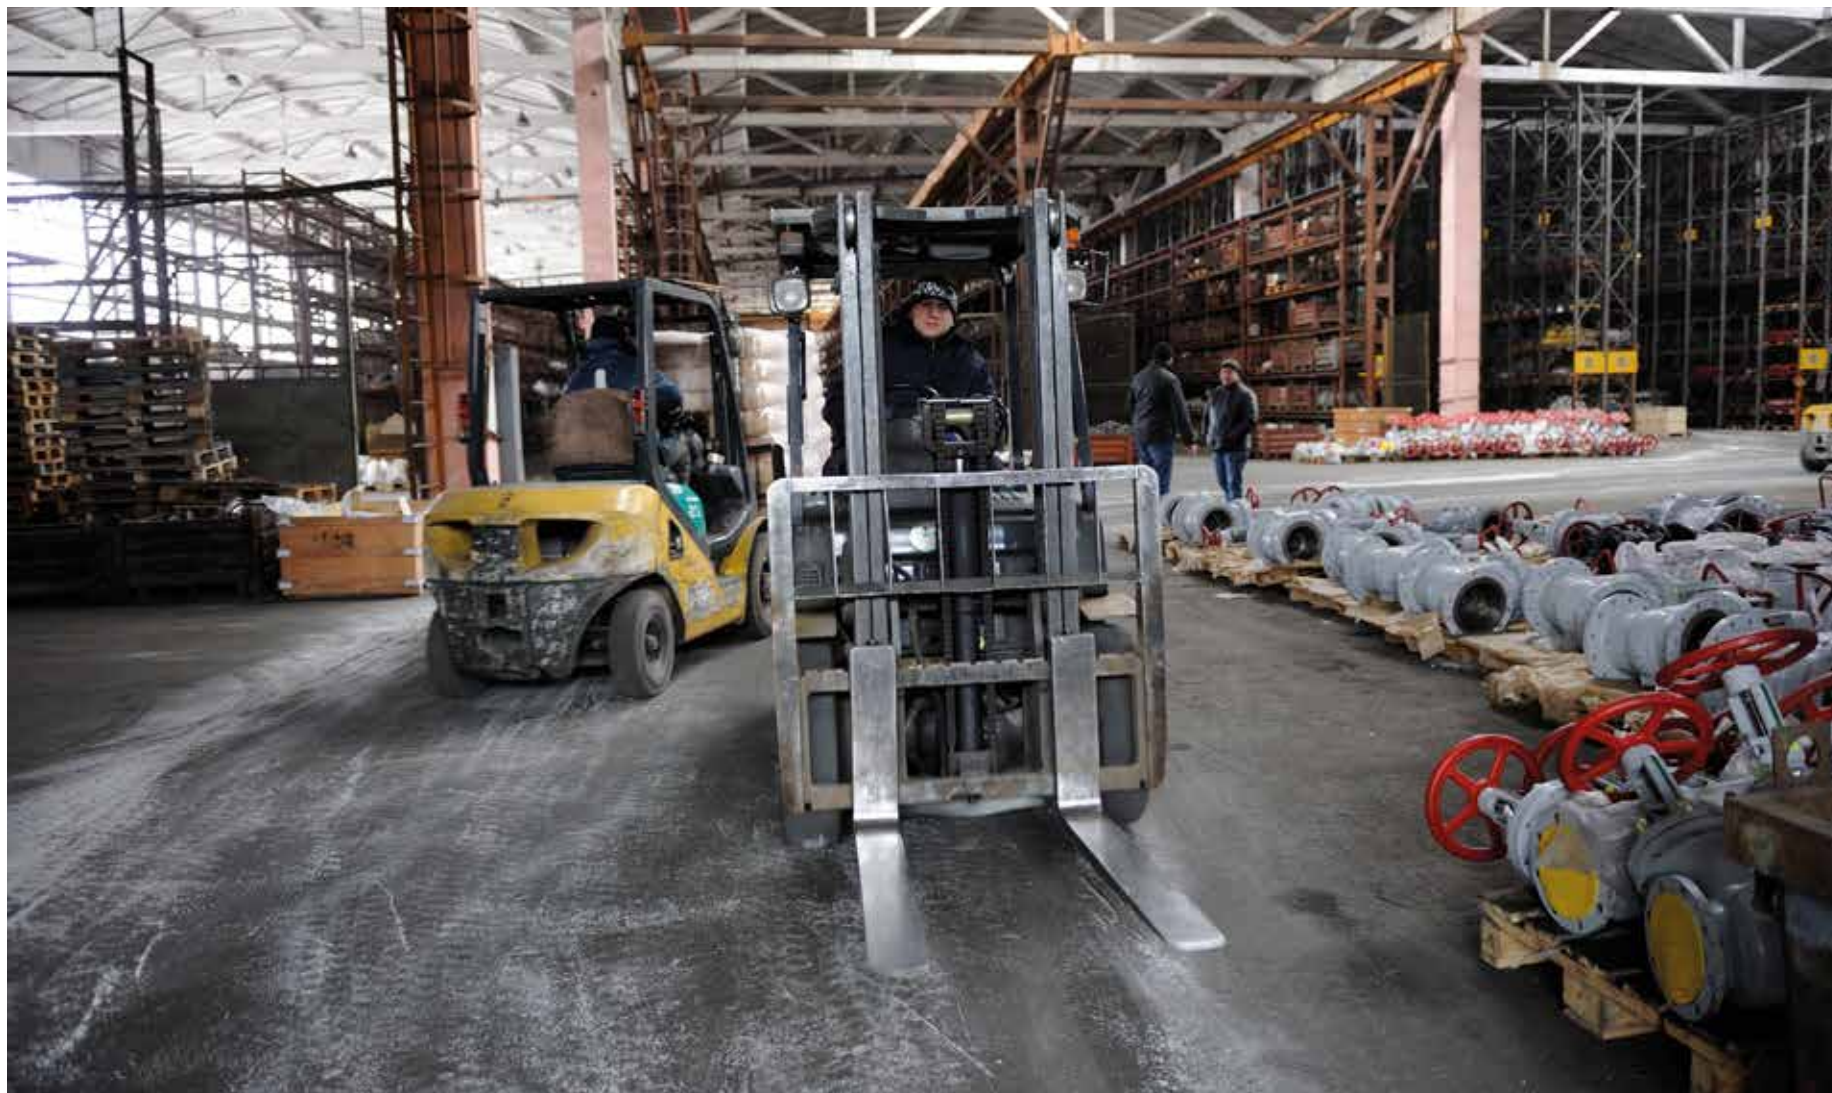

JSC «ARMA» (BELGOROD, RUSSIA) with the area 12867 m<sup>2</sup>. The goods can be shipped directly from factories` ware-houses of ready products – in Slavgorod or Mirgorod.

REPRESENTATIVES of THE COMPANY – in RUSSIA, BELARUS, UZBEKISTAN, KAZAKHSTAN, GERMANY.

Demand of society for social help today is huge, and we are always glad to help those who really need this help.

During many years within the frames of fund PROMARMATURA CHARITY we give organizational, moral and financial support to the following institutions:

- Orphan asylum, Dnepropetrovsk clinical hospitals, municipal cancer clinic
- Dnepropetrovsk area association «Chernobyl»
- Dnepropetrovsk Children's sports school № 4 and children's carting team «Promarmatura»

Our pride is children's carting team «Promarmatura», every year young sportsmen of this team win medals in the championship of Ukraine in carting.

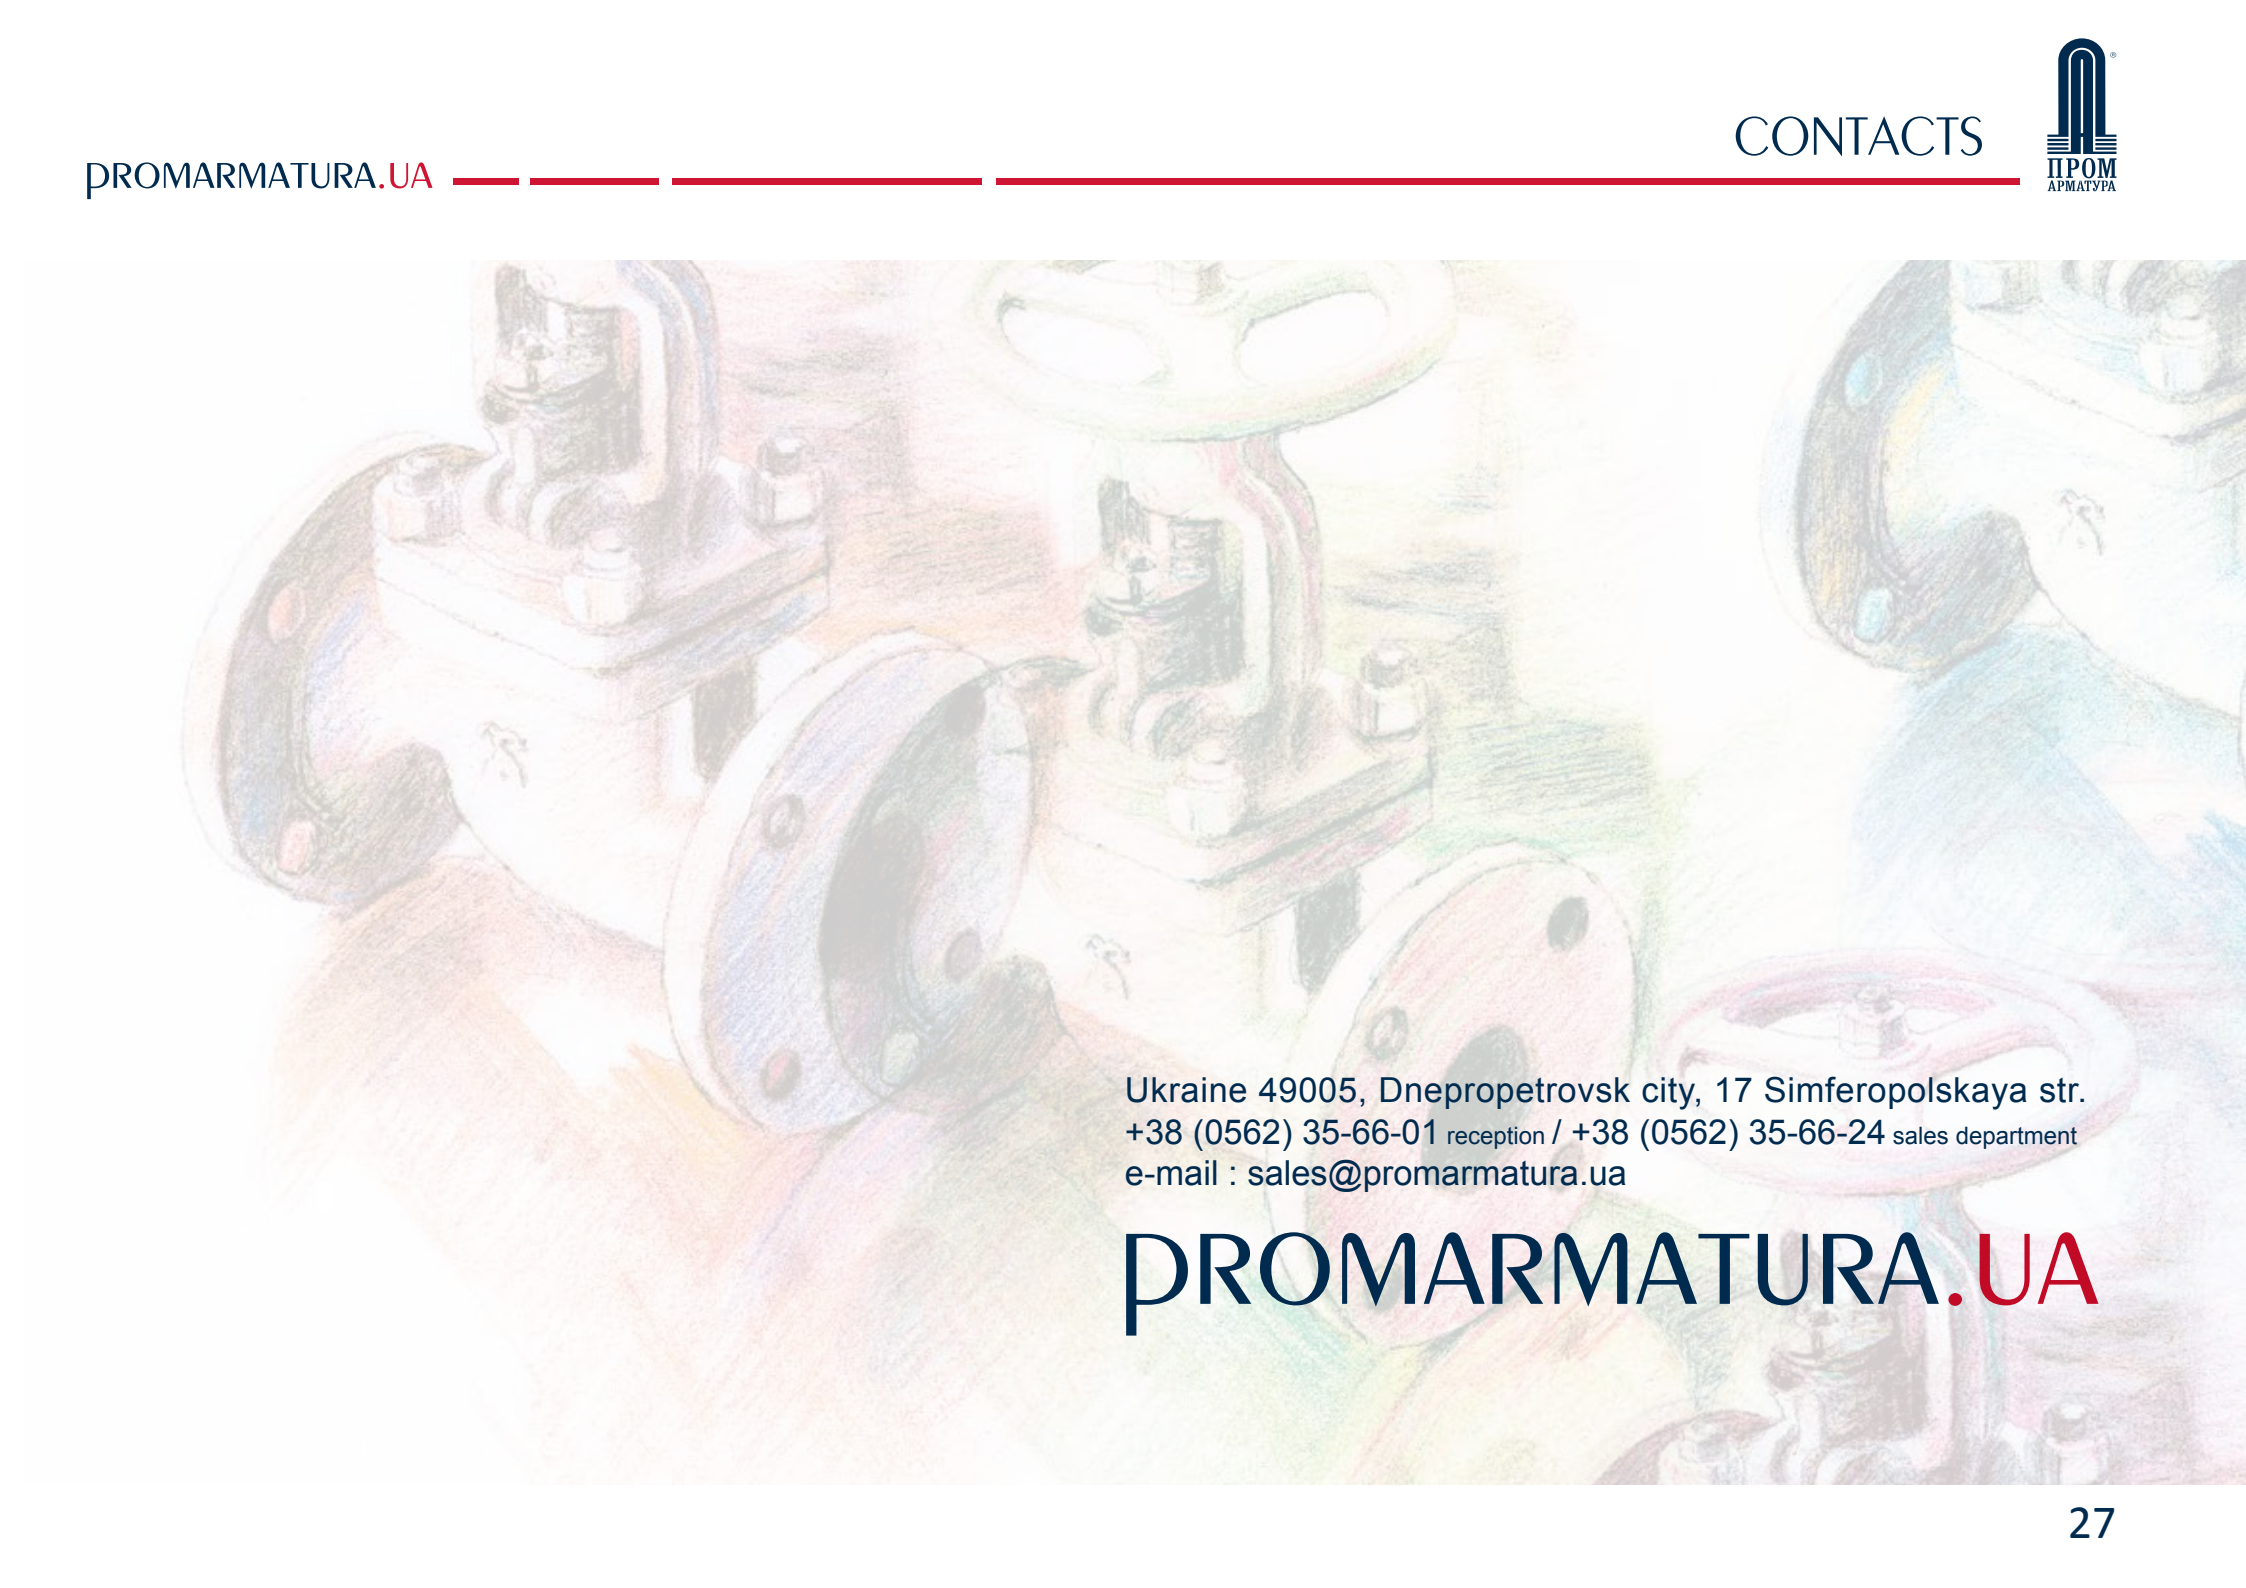

Team «Promarmatura» is the strongest in Ukraine. Among its achievements there are many wins of Ukrainian championships, Ukrainian Cups, International competitions, and also participation in the World Championship and Europe Championship.

As a sponsor we support the initiative on creation of iGov – portal for public services, created by volunteers in the frames of fight against corruption in Ukraine and improvement of business processes in governmental institutions. We give our technical support to the team of ProZorro – the project of transparent, open electronic system of state purchasing, this way we make our contribution in elimination of corruption and prevention of stealing of your and our money.
